Summary

As a computer science student with experience in C, C++, and SQL, I am well-equipped to tackle complex programming challenges in a fast-paced work environment.

As an award-winning debater, I have honed my critical thinking and persuasive communication skills through numerous competitions and debates. In my most recent debate tournament, I successfully argued for the adoption of a new policy that was later implemented by the school administration.

Education

B.E./B.Tech. Computer Engineering	Thapar Institute of Engineering and Technology, Patiala CGPA = 7.58 10/2021-Present
